RE: Application for KRA eTIMS Sandbox Access and Submission of Technology Architecture
Subject: UjenziXform Trader Invoicing System (TIS) v1.0.0 — OSCU

Dear Sir/Madam,

We write on behalf of **UjenziXform Solution** (platform: **UjenziXform**) to apply for recognition as a **potential third-party eTIMS Trader Invoicing System (TIS) integrator** and to **request access to the KRA eTIMS sandbox** at <https://etims-api-sbx.kra.go.ke>. Enclosed on read-only optical disk are our TIS integration software and certification documents describing how UjenziXform will integrate with KRA eTIMS once sandbox credentials are issued.

APPLICANT PARTICULARS

Organisation	UjenziXform Solution
Platform	UjenziXform
TIS product	UjenziXform Trader Invoicing System (TIS) v1.0.0
Solution type	OSCU (Online Sales Control Unit)
Applicant KRA PIN	e.g. P051234567A
eTIMS portal reference no.	From etims.kra.go.ke application
Contact name	Full name
Contact title	e.g. Director
Contact email	email@example.com

Contact telephone	+254 7XX XXX XXX
Registered address	Barngetuny Plaza Left Wing 3rd Floor Room 10, Ronald Ngala Street, Eldoret. P. O. Box 4146 - 30100 Eldoret

ABOUT UJENZIXFORM

UjenziXform is a digital marketplace connecting builders and construction material suppliers across Kenya. Suppliers list materials; builders create and accept purchase orders. Our **Trader Invoicing System (TIS)** will fiscalise supplier sales by transmitting invoice data to KRA eTIMS when a qualifying purchase order is submitted, and by presenting the fiscal receipt and verification QR code to buyers.

PRIMARY REQUEST

We respectfully request that KRA:

1. Accept our application as a potential third-party TIS integrator under the eTIMS framework;
2. Grant UjenziXform sandbox access to <https://etims-api-sbx.kra.go.ke> for OSCU integration testing;
3. Issue sandbox credentials and any required test device or branch data to UjenziXform Solution;
4. Advise on the next steps in integrator registration and certification following sandbox assignment.

We have developed TIS application software in preparation — including a secure API gateway (**etims-proxy**), purchase-order invoice mapping, fiscal receipt display, audit logging, and vendor onboarding — and require KRA-assigned sandbox access to complete OSCU initialization, transaction testing, and certification.

DECLARATION OF CURRENT STATUS

At the date of this letter:

- UjenziXform is an **applicant** for third-party integrator status;
- We **do not yet** hold KRA-assigned eTIMS sandbox credentials;
- We **do not** hold KRA integrator certification;
- TIS is in **development** pending sandbox assignment;
- Production use of <https://etims-api.kra.go.ke> will occur only after formal KRA approval.

ENCLOSED ON READ-ONLY OPTICAL DISK

1. This cover letter (PDF)
2. Executive summary
3. Technology architecture — TIS eTIMS integration (v3.3)
4. Appendix — sample POST /invoices payload
5. User / operator manual
6. Installation and deployment guide
7. Certification test plan
8. Optical disk submission instructions
9. **01-SOFTWARE/** — all TIS integration source files (see SOFTWARE_MANIFEST.txt)

SUMMARY OF PLANNED INTEGRATION

UjenziXform will provide TIS software and a secure server-side gateway; **supplier taxpayers** on our marketplace remain fiscal issuers, with each invoice carrying the supplier's KRA PIN as **traderTin**. All calls to KRA eTIMS will pass through **etims-proxy** with credentials stored as server-side secrets only. We will support OSCU initialization, sales invoices (type S), credit notes (type R), fiscal receipts with QR verification, and multi-vendor onboarding.

We remain available for a demonstration of our TIS application, a technical walkthrough, or any supplementary information KRA requires. Thank you for your consideration.

Yours faithfully,

Authorised signatory name
